# Our Annual July Clearance Starting Friday, July 14

# Means more to you than any previous year

A quick goodbye must be said to all summer goods, in a determined effort to reduce the stock to its right proportion, as we never carry over from season to season. Nothing will block our way to a quick disposal of everything concerned--one-third here, one-half there and even two thirds off elsewhere. Necessities of the summer season sacrificed while you still have practically three months to wear them.
